## experience

### **Ad Designer - Facepalm Charity Marathon**

Mar. 2011

Commissioned to create two similar banner ads for the charity, to be utilized for their online advertising campaign. The ads were commissioned and designed within a 24 hour deadline as per the request of the charity.

### **Game Designer - Pixelante Game Studios**

Oct. 2009 - Present

Designed, created and built multiple video games collaboratively. Specialized in the design of in game environments and virtual spaces. Developed thumbnails and storyboards, through team discussions and progressed to overall execution; ending in both guided and unguided user feedback sessions through which final adjustments were made. Developed games include alter" and "fowl space."

### **Photographer**

Feb. 2009

Ran a photo shoot of two photographers commissioned by "Yuji's Japanese Tapas." The photos were being taken for development of the restaurants web page.

### **Media Coordinator - Simon Fraser University**

July. 2009 - July 2010

Constructed and maintained multi platform work stations for both audio and video editing. Managed and taught departmental lab technicians. Installed a 3D theatre system, including parallel digital servers and inherent Crestron programming. Repaired and maintained Canon XH-A1 HD cameras across campus. Monitored and installed intercontinental ip based video conferencing systems. Reprogrammed and installed Crestnet systems. Established and problem solved various 7.1 systems throughout the campus. Have been certified as a Sanyo technician for minor projector repairs including LCD panel adjustments. Maintained labs across campus specifically video and audio codecs. managed complex audio and video setups within the campus including media feeds.
